

# Why choose your eFlops?

Your healthcare professional will take a 3D mold or scan of your foot to send to EdserLabs®.

The only designer sandals that are at the same time an orthopodological treatment, according to the podiatrist's instructions.

Made to measure with an exclusive design for the patient, they adapt in a unique way thanks to their Velcro strips.

Made with EVA and high quality leathers will provide greater comfort and durability

EDSER®

# The perfect union between **fashion and health** for your feet

A first line of sandals within a wide range of sophisticated footwear customized to offer a novel and comprehensive health and fashion solution for your feet.

Designed and produced by a group of Spanish specialists in the design of handmade footwear, and available in a wide variety of designs and colors of high quality leather, adapted to the taste of each patient, which being adjustable, guarantee the perfect efficiency of your ortopologic treatment.

Made from an exploration in 3D image with our scanner, or through any traditional mold, our eFlops offer the perfect combination of an orthopodological treatment and a sober design.
